PROCUREMENT SECTION CURRENT SERIAL RECORDS

SEPTEMBER 1971 (10 Corn Belt States)

Release:

September 22, 1971

3:00 P.M. EDT

In this issue:

- ★ September 1 Inventory
- ★ Sows Farrowing
- ★ Pig Crop

Hogs and pigs on farms September 1, 1971 in the 10 Corn Belt States are estimated at 46.9 million head, 8 percent below a year earlier, according to the Crop Reporting Board. Breeding hogs totaled 6.3 million head, 12 percent less than a year earlier, while market hogs at 40.5 million head were down 7 percent. The 10 States included in this report are Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas.

The June-August 1971 pig crop is estimated at 16.6 million head, 9 percent below the same period in 1970. A total of 2.3 million sows farrowed during the period, 10 percent below the previous year. The average number of pigs per litter was 7.25 compared to 7.18 a year ago.

Hog producers in the 10 States intend to farrow 11 percent fewer sows during both the September-November 1971 and December 1971-February 1972 quarters than in the same periods a year earlier.

HOGS AND PIGS ON FARMS DOWN 8 PERCENT

The inventory estimate of all hogs and pigs at 46,869,000 head was 8 percent below a year ago, but 5 percent above the September 1, 1969 total. All 10 States had smaller inventories than a year earlier with declines ranging from a 15-percent drop in Wisconsin to a 3-percent decline in Indiana, Minnesota, and Kansas. Iowa hog producers had 9 percent fewer hogs on hand than a year earlier. Both breeding and market hogs were lower than the previous year in each of the 10 States.

Market hogs in the 10 States are estimated at 40,546,000 head, 7 percent less than a year ago. All weight groups were below the previous year with the lighter weight groups showing the largest declines. By weight groups, the estimates and decreases from a year ago are as follows: Under 60 pounds--15,307,000, down 1,363,000 head; 60-119 pounds--10,221,000, down 1,003,000 head; 120-179 pounds--8,920,000, down 574,000 head; 180-219 pounds--5,129,000, down 59,000 head; and 220 pounds and over--969,000, down 1,000 head.

JUNE-AUGUST PIG CROP DOWN 9 PERCENT

The 10-State total of 2,294,000 sows farrowed during the June-August quarter was down 10 percent from the previous year with all States recording decreases. The number of pigs per litter was up from 7.18 to 7.25 resulting in a pig crop of 16,627,000 head, 9 percent below the previous year.

SEPTEMBER-NOVEMBER FARROWING INTENTIONS DOWN 11 PERCENT

Hog producers in the 10 States intend to farrow 2,366,000 sows during the September-November quarter, 11 percent less than the previous year. With the exception of Minnesota and South Dakota, all States are showing a decline with the largest drop indicated in Illinois. Sows to farrow in Minnesota are expected to be up 4 percent from the previous year, while South Dakota is showing no change from a year ago.

DECEMBER 1971-FEBRUARY 1972 INTENTIONS DOWN 11 PERCENT

Intentions are to farrow 1,761,000 sows during the December 1971-February 1972 quarter, 11 percent below the previous year. All 10 States indicated lower intentions with Illinois showing the largest percentage drop and Indiana the smallest.
